

WE FOR
LEVERKUSEN.
PEOPLE AT THE CENTER.

Vote GREEN on
Sept. 14

MAKES FOR TOMORROW.

OUR PERSPECTIVE FOR LEVERKUSEN.

Our city is facing major challenges: the consequences of the climate crisis, social inequalities, a highly indebted budget. But we see this as an opportunity for change, reform and development for a city that tackles its tasks with energy and confidence.

We put people at the center of everything we do - despite their different situations and needs. After all, a strong urban society thrives on openness to differences and the willingness to create justice and participation for all.

Our policies are geared towards the specific needs of the people of Leverkusen – close to their everyday lives, reliable in their implementation – for a city that is liveable, safe and fair. We are creating the future today so that Leverkusen can offer new perspectives for everyone tomorrow.

OUR TOP CANDIDATE

SVEN WEISS WILL MAKE LEVERKUSEN STRONG.

Leverkusen needs new impetus and a mayor who listens, connects and takes responsibility. Sven Weiss stands for an open political style, social justice, climate protection and a functioning administration.

A strong economic foundation creates jobs and secures the quality of life in our city. Sven Weiss wants to create attractive conditions for companies again, especially for small and medium-sized enterprises and modern companies.

His motto: Just do it – practical, down-to-earth and with a clear mission in mind.

MAKES FOR TOMORROW OUR CITY COUNCIL LIST.

Claudia Wiese (1)

Sven Weiss (2)

Rupy David (3)

Christoph Kühl (4)

Irina Prüm (5)

Stefan Pausch (6)

Zöhre Demirci (7)

Andreas Bokeloh (8)

Laura Herrmann (9)

Dirk Danlowski (10)

NATURE, CLIMATE & LIVING SPACE

Leverkusen needs more affordable housing – but not at the expense of nature.

- ❁ **Inside before outside**
Use gaps between buildings and brownfield sites and build on them instead of sealing new areas.
- ❁ **Climate-friendly building**
Greening roofs and façades, unsealing surfaces, implementing a climate adaptation concept.
- ❁ **Affordable and communal**
Promote intergenerational, integrative housing projects.
- ❁ **Preserve nature**
Protect green spaces as the city's habitat and air conditioning system. Introduce tree protection statutes.

ADMINISTRATION & ECONOMY

Leverkusen needs an administration that has everyone in mind – and an economy that thinks ecologically and takes responsibility.

- ❁ **Digital and close to the people**
Building a smart city with digital services and fast processes.
- ❁ **Sustainable Business for the Future**
Introduce a sustainability budget. Establish a transparent, impact-oriented budget plan.
- ❁ **Responsible companies**
Promote companies with a sense of ecological and social responsibility.
- ❁ **Administration considers diversity**
Reduce disadvantages in administrative action, ensure equal opportunities.
- ❁ **Citizens join in**
Inform citizens at an early stage, actively consult them and involve them effectively.

MOBILITY & TRAFFIC TURNAROUND

Leverkusen needs traffic that moves people, climate and urban development.

- ❁ **New ways for cycling and walking**
Develop a well thought-out network of cycle paths, defuse intersections and make footpaths more attractive.
- ❁ **Expand public transport**
Creating reliable local transport with better frequency, accessibility and new lines
- ❁ **40 km/h as standard**
Protect residential areas for less noise and more safety with well thought-out speed rules.
- ❁ **No highway on the back of the city**
Strengthen the "KEINEN METER MEHR" alliance, discuss alternatives in dialogue with the inhabitants, reduce pollution.

SOCIAL & GENERATIONS

Leverkusen should be a city in which everyone can live well.

- ❁ **Strengthening children**
Expand daycare facilities in line with demand, consistently strengthen inclusive structures.
- ❁ **Living equality**
Create safe spaces, enforce fair pay, expand advising services.
- ❁ **Relieving the burden on families**
Creating affordable housing, good care ensure the availability of counseling services in family offices
- ❁ **A life worth living in old age**
Developing accessible housing for seniors, cultivating community spaces and networks, and encouraging intergenerational collaboration.
- ❁ **Everyone should find support**
Offering assistance to homeless individuals, strengthening social inclusion, and expanding access to health services.
- ❁ **A city of nations and cultures**
Creating access to the labor market, accommodating in the "Leverkusen model", bringing down language and intercultural barriers.
- ❁ **A city without barriers**
Creating accessibility, supporting self-help and participation.

EDUCATION, CULTURE & SPORT

Leverkusen needs education, culture and sport - because they are the heart and compass of a diverse city. Where people can meet, learn together and develop their potential, the foundations for a future based on solidarity are laid.

- ❁ **Equitable education**
Investing in daycare centers, schools and all-day programs - inclusive, close to home and modern.
- ❁ **Learning for life**
Create educational opportunities for adults and senior citizens to lead an active and self-determined life.
- ❁ **Learning for the future, for the world and for people**
Strengthening learning in the sense of "education for sustainable development".
- ❁ **Cultural diversity**
Creating more spaces for creative people, providing reliable support for local initiatives and developing new formats for participation.
- ❁ **Sport for all**
Create barrier-free sports facilities, better equipment for clubs and more exercise areas.
